

Sydney Institute of Higher Education

Academic Learning Support Programs

Sydney Institute of Higher Education provides all students with free access to Academic Learning Support Programs.

There are three programs offered consisting of face-to-face workshops, individual consultation sessions and self-help resources:

Academic Skills Support

Assistance with referencing, technical report writing, academic integrity, exam preparation and presentation skills

English Language Support

Helps improve academic English levels, focusing on academic writing, reading and listening

Mathematics Skills Support

Helps improve mathematical ability, focusing on numerical logic, algebra, probability and statistics.
